HASNEN ALI

Bhopal, MP, India | hasnen7354@gmail.com | [+91] 9294803343 https://github.com/Hasnen-ali/

SUMMARY

Experienced Full Stack Web Developer skilled in **Java**, **Spring Boot, Node.js, Express.js, React.js, JavaScript, HTML, CSS**, and related technologies. Proven experience in developing complex web applications including Developer Meet, Admission Management & CRM System, and Task Management System along with **10+ hands-on projects**. Strong **problem-solving skills**, database design expertise, and a keen eye for detail.

SKILLS

Languages:
- Python
- JAVA
- JavaScript
- TypeScript
- HTML
- CSS
- Dart
- Node.JS
- Servlet
- Spring Security

Data Base:
- MySQL
- MongoDB

Third Party Api:
- RazorPay Payment API

Frameworks/Libraries:
- Spring Boot
- React.JS
- React Native
- Next.js
- Tailwind CSS
- Bootstrap
- Express.JS
- Hibernate

Tools:
- Git / GitHub
- Android Studio
- IntelliJ idea
- Vercel
- Render
- VS Code
- Maven
- Swagger
- Postman
- Docker

PROJECTS

- **Developer Meet – File Upload & Collaboration Platform**
  Deployed Application: https://developer-meet-app.vercel.app/
  GitHub Repository: https://github.com/Hasnen-ali/Developer-Meet-App
  Technologies: Java · Spring Boot · React · MongoDB · Docker · JWT · Tailwind CSS. Built a full-stack file collaboration platform with role-based access control using Spring Boot, React, MongoDB, and JWT authentication. Developed 25+ REST APIs, implemented secure authentication, and created a responsive UI with drag-and-drop uploads and dashboards. Deployed using Docker (Render) and Vercel.
- **Admission Management & CRM (Customer Relationship Management) System**
  Deployed Application: https://admission-management-crm-flame.vercel.app/
  GitHub Repository: https://github.com/Hasnen-ali/Admission-Management-CRM
  Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT. Built a MERN-based admission management system handling registration, seat allocation, document verification, and fee tracking with role-based access control. Implemented MongoDB transactions to prevent overbooking, developed 10+ REST APIs, and created a real-time dashboard with a responsive UI using React and Tailwind CSS, Deployed the application using Vercel (frontend) and Render (backend) for scalable and reliable production hosting.

- **Task Management System**
  Deployed Application: https://task-management-system-ochre-psi.vercel.app/
  GitHub Repository: https://github.com/Hasnen-ali/Task-Management-System
  Technologies: **Node.js, Next.js, Express, TypeScript, Mongoose, MongoDB Atlas, JWT, React Hook Form, Tailwind CSS, Axios.** Built a full-stack task management system with JWT-based authentication (access + refresh tokens), CRUD operations, and search/filter/pagination. Implemented auto token refresh using Axios interceptors and secure logout with token invalidation. Developed a responsive UI with Next.js and Tailwind CSS. Deployed on Vercel (frontend) and Render (backend) with MongoDB Atlas.

PROFESSIONAL EXPERIENCE

ETHICAL INTELLIGENCE SOLUTIONS LLP, BHOPAL, MP **November 2024 – November 2025**
SOFTWARE DEVELOPER

- **Techno hub Coaching Management System:** Developed a full-stack web application for managing student enrolment, course scheduling, and faculty operations. Implemented secure authentication with **Spring Security** and dynamic **React.js** dashboards and Used ***Spring Boot*** **with MySQL,** Used Third Party Api **Razor Pay Payment API.**
- **School Management System:** Designed optimized database architecture and developed the front-end using **React.js**, **JavaScript, Bootstrap**, and back-end with **Node.js, Express.js, MongoDB** for a school managing 1,000+ students.
- **Astro: Material Testing Platform:** Designed and implemented the front-end for a material testing platform using **React.js** and Tailwind CSS, integrated with Java/MySQL backend, streamlining testing of materials like Aluminium, Stainless Steel, and AlSi10Mg for industrial clients.

Airport Authority of India, BHOPAL, MP **Mar 2021 – Mar 2022**
Diploma Apprenticeship Trainee

- Maintenance and testing of (500kVA to 1600kva) Transformer involves various procedures, Dielectric Testing, Winding Resistance Test, Transformer Turns Ratio Test, Oil Analysis, Tightening Connections, Cooling System Maintenance, etc.
- Maintenance and Testing of Generator (320Kva to 720kva) various procedures, Voltage Regulation Test, Frequency Testing, Insulation Resistance Test, Fuel System Testing Regular Oil Changes etc.

EDUCATION

B Tech | Electrical and Electronic Engineering **06/2021 – 05/2024**

- **University Name** | Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal, MP
- **Percentage: 83%**

Diploma | Electrical Engineering **06/2017 - 05/2020**

- **University Name** | Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal, MP
- **Percentage: 77.9%**

ACHIEVEMENT

- Participated in Extempore and Enhance my English-speaking skill than I have won Extempore.
- Participated in Modelling Competition and won 3 positions in My College.
